# STOCK LEVEL MONITORING SYSTEM

Use case	Single sensor applications, 1 container	Multi sensor applications, 1 container	Multi-sensor, multi-container applications
Applications and Products			
Recommended Materials	• Liquids • Solids with known material distribution	• Solids with unknown material distribution	• Liquids • Solids with known material distribution • Solids with unknown material distribution
Recommended Products	Stock Level Monitoring System x 1	Stock Level Monitoring System x 4	Stock Level Monitoring System x 4 + Additional Systems or Sensors
Data output			
Distance Data (mm) sensor to material surface	Yes	Yes	Yes
Distance Data (mm) material surface to container bottom	Yes	Yes	Yes
Material Level (%)	Yes	Yes	
Material Volume (l)	Yes	Yes
